استاد گروه مهندسی شیمی

To Whom It May Concern

I am pleased to write this letter of reference for one of my best students, **Mr. Mohammad Amin Mirhosseini**, who was a student in my "Thermodynamics I" course. He always attended the classes, took the notes carefully, and listened to the materials presented with concentration. I would rank him at the top 5% of the class based on his score of **19.5 out of 20** in my "Thermodynamics I" course.

He is considered to be well above the average compared to our other students and within the first 10%. I should note that our students are admitted by very tough and highly competitive nationwide entrance examinations.

Mr. Mohammad Amin Mirhosseini is a hardworking and organized student with a pleasant personal character and easy to work with. I believe that he could be a very successful PhD student and I highly recommend him for admission.

If you have any questions, please do not hesitate to contact me by sending an email to:
